

# About The Website

All images are copyright free – With all designs coming from Canva, the royalty free pictures and images from Pexels, Unsplash, and icons from Flaticon

Videos and other types of animation videos such as GIFS were copyright free and created from Canva or retrieved from Pexels/Unsplash

Our idea behind this website was to simply convey the information present in an effective way while also creating a fun, interactive, and professional site. We wanted the website to, of course, answer the prompt but also go beyond that and create a fun environment that was user friendly. In the end, we strived to create a site that would be enjoyed and resonate with those who interacted with it.
